

## CRAFT AND DESIGN

*Object*: Australian Centre for Craft and Design, housed in a former chapel in the St Margaret's Centre, Bourke Street, Surry Hills, Sydney

This is a gem of a gallery in an interesting building – an innovative showcase for the best of Australian craft and design. Hosts six major exhibitions of craft and design each year, plus two further exhibitions at the *Sydney Opera House*.

This gallery instigated pivotal exhibitions by *Australian* design icons such as *Akira Isogawa* and *Dinosaur Designs*. Publishes a magazine 3x year. This is a not-to-be missed showcase of future talent.

Watch out for designer events & public talks at *Object*

Currently showing until 5 April is Australian former restaurateur and writer Gay Bilson's extensive collection of bird's nests. Her admiration for the beauty of these delicate natural objects has resulted in a unique private assemblage.
